

GRP Tank Furniture

Bespoke structural GRP products from the people who really know

Given our understanding of how GRP performs under hydraulic and imposed loads, Formatank will design and manufacture bespoke products to a quality unrivalled in the industry. With over 20 years manufacturing GRP products for the UK's water industry, Formatank can genuinely claim to be GRP specialists.

- Self-supporting GRP covers onto concrete or steel tanks
- GRP sump covers to suit apertures of any dimensions or geometry
- Low profile GRP covers
- Full range of GRP ancillary products including hatches, vents, and non-slip textures
- In house CAD design
- 'Z' and 'U' style GRP launder channels for fixing to concrete or steel tanks
- GRP vee-notched weirplates, pre-curved scumboards, and baffles
- GRP diffusion drums

"I am pleased to have the opportunity to highlight the high regard we have had in all our dealings with the owners of Formatank Ltd. I am sure that I will be working closely again with Formatank in the future due to their knowledge of tanks and GRP and their conscientious and dedicated approach to work that is a critical foundation to any business."

Gary Little, Managing Director. Build your Business Ltd
