

Testimonials...What people are saying about us

During the delivery of a recent Northumbrian Water Project at Bran Sands in Middlesbrough, Formatank were contracted to supply and install odour control equipment which involved the manufacture and design of covers and ductwork. I was pleased with the manner in which Barry and his team conducted themselves both on and off site from design through to installation. The finished product was to a very high standard and I would be happy to recommend them for future GRP and I or installation works.

Andy Vipas, Site Agent

We engaged Formatank Ltd to reline a 16,000 litre GRP fresh water header tank which was seeping. The tank dimensions are 2 meters x 2 metres x 4 meters long. The initial enquiry was responded to promptly and was the most competitive from three enquiries. We requested that Formatank complete our contractor competence questionnaire which was returned within one week and was approved allowing their registration as one of our suppliers. The order number was raised and this was followed up by a prompt site visit by Mr B Veitch of Formatank. Formatank provided a very good standard of risk assessments, method statements and COSHH data for the work. The work was carried out in efficiently and to a high standard with good workplace organisation and the tank was handed back on time. I would have no hesitation in recommending Formatank for this type of work.

Ron Graham, Health & Safety Manager

Just a note to thank you for your assistance with undertaking the cold water storage tank lining repairs at one of our care home recently. The Facilities Manager was very impressed with the manner in which you communicated and the diligent approach in undertaking the works. We are both pleased with the assistance and diligence shown by your team in a sensitive environment with specific timescales to meet. I would not hesitate in using your services again.

Alan Greenwell, Regional Property Operations Manager

Testimonials... What people are saying about us

Borders Sport & Leisure Trust commissioned Formatank in Oct 2011 to line the water tank at 3G Arena Netherdale. I'm happy to verify that the quality of work carried out was of the highest standards and I would not hesitate to recommend Formatank as an extremely competent and reliable company to work with.

Ian McNeilage Technical Manager

The Formatank team were very friendly and proficient and were quick to respond to any questions or queries we had. All works were carried out to a high standard and completed on time. We found the service flexible and reliable and were pleased you were able to accommodate our schedule.

Hannah Conroy, Sales & Planning Co-ordinator

We have used Formatank to re-line our fire sprinkler tank at the Hillstreet Shopping Centre in Middlesbrough recently. I can confirm that Barry and his team have carried out the works to a high standard and in a professional manner, they complied with all Health & Safety rules and site specific instructions. We found all staff to be helpful and completed the necessary works on time and where available for any queries that we may have had.

Colin Smith, Operations Manager

As you know we were really pleased with the service and customised product that we received from Formatank. The finish on the tank was really good and we were able to fit our tank linings without the need for additional filling material. We were proud to dispatch it to our customer in Canada and the feedback that we have received is that it exceeded their expectations and that they will be recommending us to other researchers. I do hope that we will be able to work together again in the near future

Terri Gill, Managing Director

We have pleasure in providing a reference in support of Formatank Ltd. They are a company with personnel & skills well known to Anua, and we look forward to continuing working closely with them in the future. I'm happy to recommend the services of Formatank Ltd.

Niall McNamara, Project Manager
